

# House System Presets

## To Use System:

1. Plug cable to mic and to **Mic 3** input in cabinet.
2. Double check highlighted settings match diagram.
3. Turn on light switch below and to the right of cabinet.
4. Mic is now operational.
5. Use **Master** knob on **Bottom** unit to adjust volume if needed.
6. When done, please turn light switch off and disconnect mic and cable.
